№ EN/DM/794

The Secretariat of the Conference on Interaction and Confidence Building Measures in Asia (CICA) presents its compliments to the CICA Member States and has the honor to inform that in accordance with the CICA Plan of Implementation of Confidence Building Measures for 2022 the People's Republic of China is going to organize an online International Conference on Mine Safety Risk Prevention and Control among CICA, tentatively in late October.

*Enclosure:
as stated, on 3 p.*

The Secretariat has the honor to convey herewith the corresponding concept paper and registration form for the participants of the Conference that should be kindly submitted to the Secretariat and organizers prior to 15 September 2022.

The Secretariat avails itself of this opportunity to renew to the CICA Member States the assurances of its highest consideration.

2022 International Online Conference on Mine Safety

Risk Prevention and Control among CICA

The member countries of Conference on Interaction and Confidence-Building Measures in Asia (CICA) are generally rich in mineral resources. Mining industry is an important foundation for economic and social development. However, due to the constraints of resource preservation conditions and technology readiness level, accidents frequently occur in mines, seriously affecting the safety and health of employees. *The CICA Catalogue of Confidence Building Measures* emphasizes the necessity for industrial safety risk prevention and control. Strengthening communication and cooperation in industrial safety risk prevention and control is in line with the expectations of CICA member countries to improve the level of safety risk identification and enhance the ability of enterprise safety risk prevention and control. The Ministry of Emergency Management of the People's Republic of China will host **2022 International Conference on Mine Safety Risk Prevention and Control among CICA**. It aims to improve the level of mine safety risk prevention and protect the safety and health of mine workers among member countries by establishing a mine safety risk prevention and control exchange platform. It will further enhance confidence in regional economic development in the post-epidemic era, and promote the sustainable development of the industry. The conference will focus on risk prevention and control for coal mine safety. The representatives from all member countries are cordially invited to attend.

I. Date & Venue

Date: Late October, 2022

Venue: Online in Beijing, China

II. Host & Organizer

Host: Ministry of Emergency Management of the People's Republic of China (MEM, PRC)

Organizer: Information Institute of Ministry of Emergency Management (IIEEM)

III. Requirements

Conference attendees (limited to 2-3 people per member state) are encouraged to have the following experience:

- (i) Director Generals from government departments of mine safety, experts in mining research institutes or management staffs of mining enterprises;
- (ii) Rich experience in coal mine safety management.

Conference attendees will be required to send a Registration Form (refer to Attachment 1) to the contact by e-mail or fax prior to September 15, 2022, and send a carbon copy to the Chinese embassy/consulate.

IV. Working Language

English and Russian

V. Key Topics

(i) Institutional mechanisms and policy implementation

The conference will discuss different institutional mechanisms and policy implementation that may be used to enhance local coal mine safety risk prevention and control capacity.

(ii) Experiences of coal mine safety risk prevention and control management

The conference will introduce the coal mine safety risk prevention and control management experiences from the views of both government and enterprises.

(iii) Technology support for coal mine safety risk prevention and control

The conference will display advanced technologies such as Management Information System and present technical achievements which support coal mine safety risk prevention and control.

(iv) Best practice cases

The conference will share the best practice cases in the field of coal mine safety risk prevention and control and exchange in-depth learning among CICA member states.

VI. Conference Platform

Live conference platform: Zoom
