**Draft Concept Paper of the CICA Workshop
on Sustainable and Secure Development of the Internet**
(24 August 2022, Zoom)

Introduction:

During the last several decades the Internet has become a global system of communication and information dissemination that provides with vast opportunities for receiving and transferring information. Diverse stakeholders, including non-governmental ones, deal with the network development and exploitation.

As any other modern information and communication technology, the Internet poses not only convenience and development, but some risks and challenges as well. In these conditions, there is an increasingly urgent need for discussing international governance of the network, the Internet development as a global communication network involving a wide range of experts within international fora, including the CICA.

Theme of the workshop: “Sustainable and Secure Development of the Internet”.

Date: 24 August 2022.

Venue: online.

Organizers of the workshop: the Russian Federation.

Participants from the CICA Member States: officials from the relevant ministries and agencies, experts, representatives of IT companies and academia from the CICA Member States.

Proposed agenda:

1. Approaches of States to the development of national segments of the Internet
2. Strengthening international cooperation in the field of the Internet development

3. The role of business in the Internet development

4. Approaches of academia to the Internet development problems

Expected outcomes:

The discussion on sustainable and secure Internet development will increase participants' understanding of establishing a more justice and reasonable Internet governance system. Through strengthening communication, deepening practical cooperation and improving dialogue in the field of security of and in the use of ICTs and consultation mechanism, the global internet governance system will become more justice and reasonable to reflect most countries' wishes and interests more balanced.
